MARC 21 [Term and Code List for RDA Carrier Types](#)

This list contains *Resource Description and Access* (RDA) terms and corresponding two-character lower case alphabetic codes for RDA Carrier types. These types can be recorded in MARC Bibliographic and Holdings records in textual form and/or in the two-character coded form in **MARC field 338 (Carrier Type)**. They may also be recorded, sometimes in a more granular and sometimes in a more general form, with one-character codes in the **MARC 007/01 (Specific material designation)** with a few exceptions (see tables). In the following, the two-character codes and terms for field 338 \$b and \$a, respectively, are listed along with the corresponding MARC 007 (or other) codes.

The source code for this list in field 338 \$2 (Source) is **rdacarrier**.
